

MUHAMMAD RAYHAN NOVELO

FULL-STACK DEVELOPER

Jakarta | +62822-6411-3501 | rayhan.novelo@gmail.com | [Linkedin](#) | [GitHub](#) | [Portofolio](#)

With over 5 years of experience as a Full-Stack Developer, I possess strong expertise in JavaScript, PHP, and database management with PostgreSQL and MySQL. To develop full-stack applications, I primarily use frameworks like Next.js, Adonis.js, and Laravel. For building user interfaces, I use Tailwind, Shadcn/UI, and Bootstrap. Throughout my career in finance, operations, and e-commerce sectors, I have developed strong problem-solving skills and adaptability. These experiences have made problem-solving one of my key strengths.

Work Experiences

Full-Stack Developer, PT Perusahaan Perdagangan Indonesia

(Dec 2021 – Present)

- Developed a finance application to manage vendor invoices
